

You are a blessing from God in our life and the whole HPM family. Thank you for providing the stability, support, wisdom, kindness, and love that you do for HPM.

With more than four decades since its inception by a leading visionary Shri Srikisan Dass Aggarwal HPM has ruled and led the agro-chemical industry in India and abroad. With the motto of 'Yielding Prosperity', the company has stood steadfast by its mission of bringing prosperity in the lives of all associated with it. Right from our adept team of meticulous farmers to our dynamic board of management directors, the company has ensured to touch and make a colossal impact in the lives of all.

MRS. SANTOSH AGGARWAL

Thanks Mrs. Santosh Aggarwal for Inspiring us over the years. You are a wonderful person, mother, wife, mentor, and friend. You are everything one could look for in a good mentor. You groomed us to be sound professionals and we learn something new from you every day. It would be impossible to count all the ways that you've helped us in every ways. Thanks for opening our eyes to new stages of opportunity and strength. You always guide us towards the right path. we admire you for your humility, your diligence, and your unwavering purpose. You have shown us how to be a more effective human being, and for that we cannot thank you enough. You are a fantastic person that is worthy of emulation. How could we ever express all our thanks for your guidance — truly we have been blessed to have you in our life.

FROM MR. ASHOK AGGARWAL

HPM has been an early adopter of a strong CSR agenda. HPM has had many different CSR, which proves to be a massive crowd puller & is of great initiative. All tasks are arranged in a participatory way, in counsel with the group, truly sitting with them, and checking their fundamental needs. HPM has always indulged itself in the processes related to the social, economical & environment viabilities. The company has had many different CSR, which proves to be a massive croud puller & is of great intiative. All tasks are arranged in a participatory way, in counsel with the group, truly sitting with them, and checking their fundamental needs. HPM took plan of action for the cure of "rural communities" which is a mapping procedure. Along these lines, in view of an accord and in exchange with the rustic groups, organization organize prerequisites. Also, along these lines a task is conceived. Usage is the obligation of the group and our group, just like the observing of turning points and alternate viewpoints. Observing involves physical confirmation of the advance and the real yield of the venture.

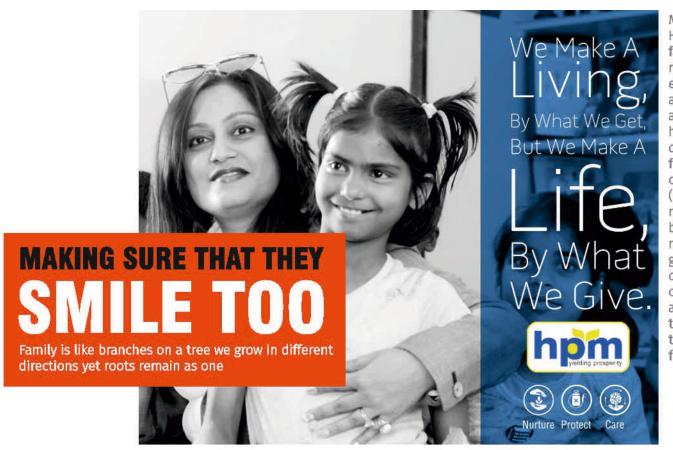

A person without family is not complete in this world because family is an integral part of all of us. Family is the great part of our life. We are incomplete without the family. Family plays a significant role in our life.

A family is like a tree, there are many stems in the tree. Same as our life, there are so many relations in a family such as our parents, our siblings, are living together. We become the happier person, and we have not any tension about anything, just because of the family behind us. It plays many important roles throughout the life. A lot happens within our environment. It may be hard to believe but yet true that the there are many children they don't have any family. They have no parents who can understand their grief, they have no siblings who can play with them . Their lives are full with challenges and hurdles. These children suffer a lot . It is very sad and painful to see them in such type of condition.

Mrs. Tapasya Goel, Executive Director of HPM . She is an energetic and a dynamic face of the organization. Time to time she runs company's social projects on a solid establishment of moral standards, great administration and sound administration. She has planned and hosted many CSR activities. Now she doing an extra-ordinary work for orphans for their betterment, she adopted 9 girls child from SOS Children's Villages of India (Bawana, Delhi). She took the responsibility of their education and bright future. She has also distributed note book, water bottle ,Tiffin Box for 9 girls and 150 water bottles for rest children and on the behalf of the HPM company she has also donated the great amount of Rs.97,200 for the education of these girls . A Small step with deep thought has been taken to make their future bright and secure.

Now we're on a mission to make sure every orphan child knows they are loved, that they matter, and that they have incredible potential.

SOS Children's Villages of India is a NGO committed to the care of once parentless and vulnerable children and to strengthening families and communities as a preventive measure in the fight against abandonment and social neglect. The mission of the SOS Children's Villages of India is to build families for children without parental care so that they grow up with love, respect & security. The Family Strengthening Programme (FSP) is a preventive community intervention programme aimed at preventing the abandonment of children in close vicinity of the village.

Since its inception in the year 1964, SOS Children's Villages of India has expanded its work for children in need at a rapid pace. It is spread across India in 22 states with 33 Children's Villages. It is the first Child Care NGO in India to obtain CRISIL Ratings for strong delivery capability and high financial proficiency. Currently we are reaching out to 24,000 children across the country.

BREATHE

When HPM came to know about Ashwini and his terrible

When HPM came to know about Ashwini and his terrible disease. Company took a decision to help him and took every responsibility of his treatment and provided Rs. 57000 / to his family . Now Ashwini is ready to live his life again with the help of HPM . Now he is able to play like other children. Now he can fulfill his every dream.

In the age of social media we often overlook the importance of bringing people together offline. Putting on an event can be a very effective way to celebrate a charity's supporters and raise funds. We have safely donated to many local community groups and charities with the confidence that our donation will go to a good cause. The world does not lack for things for us to be worried about. However, it's also filled with people already working to do good.

HPM has always indulged itself in the processes related to the social, economical & environment viabilities. The company has had many different CSR, which proves to be a massive croud puller & is of great intiative. All tasks are arranged in a participatory way, in counsel with the group, truly sitting with them, and checking their fundamental needs. HPM took plan of action for the cure of "rural communities" which is a mapping procedure. Along these lines, in view of an accord and in exchange with the rustic groups, organization organize prerequisites. Also, along these lines a task is conceived.

Children are like wet cement whatever falls on them makes an impression. A child is a beam of sunlight from the Infinite and Eternal, with possibilities of virtue and vice, but as yet unstained. Children are the hands by which we take hold of heaven.

HPM tries and guarantees that while in the transient organization needs to do colossal hand-holding, the undertakings wind up practical by the recipients as time goes on. When this stage is achieved, we pull back. Along these lines we don't fabricate a culture of reliance, rather we make the people self-reliant.

MASTER ASHWINI

Childhood, one of the best part of life for every human being. Its name only implied its meaning Childhood - full of innocence, full of life, fun at it's pick. Word become small if we start defining childhood. Like all children, Ashwini was also happy with his childhood. He had no responsibilities; He was looked after by his parents. He got everything without doing anything. He enjoyed perfect freedom. He had no worries, no hardships and no troubles. He could say anything to anybody. If he done something wrong, he was generally excused. Even his meaningless chatter was a source of joy. His life was full of innocence. He built castles of sand and felt very happy. He got joy in floating paper boats.

He often quarrelled with others over small things but soon forgot about it, that was really the golden period of his life. Every sweet memories of that period was glorious. Unless his dreadful disease was detected. When he was small, he unfortunately got sick with this terrible disease. He had a hole in his heart which made his breathing difficult. His breathing had become difficult and he easily got tired even after playing for few minutes. His consulting doctors have prescribed early surgery. Ashwini had to go to the hospital at this age of going to school. The estimated cost of his treatment is Rs. 57, 000. Earlier "National NGO "provided financial assistance of Rs. 22,000 to Ashwani in 2013 when his heart valves were blocked.

LET SOMEONE, SEE THROUGH THEIR EYES GREAT SIGHTS, GREAT HEIGHTS

Eyes are one of the most complex organs in our body. We rely on our eyes to navigate and understand the world around us. Eyes play a vital role in humans life.

Blind Organization of India is genuine public trust doing well being activities for visually impaired people. They are concentrating to accomplish the better amenities for them. HPM wants to help the Blind Organization of India and support them for a medical relief. With the avowed aim of helping the needy and blind person. HPM helped "14 poor persons who need cataract surgery with lens" and for that company gave the amount of Rs. 1,19,000.00.

Earlier, Blind Organization of India was inspected by the HPM chemicals & fertilizers Ltd. And they looked at the lack of inconvenience and funds to work on them. So in aid of that, this CSR activity "Save eyes, Save Life" was conducted in Mumbai. After the successful implementation of this CSR Activity, it is undertaken in rest other states of the nation. Hopefully, this has come up with successful results.

WHEELCHAIR DISTRIBUTION KHUSHKHERA

To help disabled people lead a productive and dignified life, HPM Distributed wheelchairs to beneficiaries all over the district, thus helping them to become more mobile and better able to partake in life's activities.

SAMUHIK VIVAH

HPM has been one of the proud sponsors of Samuhik Vivah Samiti where mass marriage ceremonies are annually performed for underprivileged girls. Our vision is to embrace the needs of the financially week families by providing support and assistance in whatever capacity needed.

Each person who was a part of our samuhik vivah represented hope, change and a better future for generations to come.

DISTRIBUTION H 1010

Plantation Drive of plant one Lakh trees around River Basantar & Industries area (Sidco) by J&K Crop Protection Samba under Supervision of President Narinder Sharma, of Insecticide India Ltd., Vice President, Vikas Dhar of Hpm Chemicals & Fertilizers Ltd., Rohit Saroha Treasurer , of shivalik agro pvt.ltd. & other member of other pesticide unit like Krishi Rasayan exports Pvt.Ltd., Gharda Chemicals Ltd., Ravi Crop Science, UPL Ltd., Crop Chemicals Industries , Rajdhani petrochemicals Itd., Sumil Chemicals etc. Under the guidance of worthy Chairman, Member Secretary, Regional Director & Local districtsof Fire, PCB & Forest Department of Samba. Other plants.like Mulberry trees=3000, Sukh chain, Chinar trees, Reetah trees. Fruits trees like Mango, Guava etc are planted in nos from 300 to 500 each. Their maintenance is also the part of our drive till their Survival. J&K crop protection will bear all expenditure for survival of their One lakh plant which is approximately 30 to 35 Lakh. Next part will start in rainy season by 15 th of July 2019.

Today, one of the biggest problems in the country is the problem of Pollution. It has created a long lasting impact on every citizen. After addressing the growing problem of pollution in India, the company launched a Green Nation Clean Nation Campaign. Under this campaign, they planted 10000 trees and made everyone aware of tree plantation. This campaign had a good impact on the environment. After this campaign, there will be great relief in Pollution which will be beneficial for the entire society. Planting one tree means planting a whole living system. The experienced people of the company planted the saplings. Tree plantation is a harbinger of prosperity. Plants eliminate the pollution and are beneficial for the health, too. Planting one tree means planting a whole living system. Our dedicated tree plantation Campaign worked toward communicating this very idea to masses. The initiative has celebrated all over in India.

Time to time using distinct socio- cultural tools, like poster exhibitions, lectures, presentations, we sensitize masses on scientific, social, cultural and spiritual importance of trees. Description of this multifaceted role of trees is enough to generate that warmth within the hearts of peoples. And then we trained peoples in the art of planting and caring for trees. Annually the CMD sir Mr. Ashok Aggrwal ji, plant tree sapling at his official residence, And to support this day whole HPM Team do the same and plant tree saplings. It is to promote people to change their attitude towards the environment for making a safe future.

GREEN NATION CLEAN NATION

Planted 10000 trees and made everyone aware of tree plantation. This campaign had a good impact on the environment.

Corporate Social Responsibility is the continuing commitment by the business to behave ethically and contribute to the economic development, while at the same time improving the overall quality of life of the workforce, their families and the community & society at large. As these ideologies are built right into the motto and operations of HPM. The farming community has been the backbone of our country, and this is the reason HPM and this is why we are proud to share with you an initiative pioneered by HPM with the focus of spreading awareness about creating something which is meaningful and extends beyond business-a better life for farmers.

We are grateful to the school authorities and the village personnel for assisting us in all ways possible to make this event a grand success. Our best wishes out to the kids from each and every one of the seventy-two schools for their future. And finally, the CSR event was not just something that we were compelled to do, it was something that the entire ideology of HPM stands upon-yielding prosperity.

Santosh Krishi Diwas' partnering with villages from the interior of the country and under the guidance of our MD Ashok Aggarwal and Director Tapasya, our initiative was to focus on Government primary schools so that we could connect with the maximum number of kids and give them the most current and relevant information about farming techniques, advancements in irrigation technology, crop growth and information, and several other tips and techniques. They were taught about the relevance of farming in our economy and how these kids as individuals can contribute to the betterment of the same. Our team took the initiative to distribute merchandise that has been specifically crafted keeping in mind the needs and requirements of kids from primary schools.

Our gift package included a highly durable and useful water bottle, notebooks made from recyclable material and a infographic designed specially for kids so that they can understand the information that has been provided to them. 'Santosh Krishi Diwas' was a major initiative that focused on moulding the kids' understanding towards the importance of farming. Our company takes pride in the success and the large scale of the event. It was a challenging task for the team to organise such an event on a Pan-India scale, but HPM only believes in setting the bar higher for ourselves.
